

Notification Process for Greenfield & Hales Corners Area Schools: Confirmed COVID-19 Case

Local Health Department's are responsible for communicable disease follow-up for all residents under WI State Statute 252.

When a positive case is identified, the Local Health Department will work with their nursing staff and the school to complete a follow-up investigation. An isolation period will be determined for the confirmed case based on onset of symptoms.

The Local Health Department will contact the appropriate school staff to obtain a list of all individuals that were in close contact (within 6 feet of the confirmed case for 15 minutes or longer) with the confirmed case two days prior to the last day the confirmed case was at school/school activity.

The school will provide the list to the Local Health Department in a timely manner.

Contact tracing will be completed by the Local Health Department according to contact jurisdiction. The Local Health Department will coordinate the notification of close contacts with appropriate local health departments. Close contacts who are Greenfield residents will be notified by phone call, letter, or text message from the Greenfield Health Department and directed to quarantine immediately. Below is the Greenfield Health Department's explanation of release from isolation or quarantine due to exposure or illness:

COVID-19: Isolation Release Times

**I have been diagnosed
with COVID-19**

Remember: If there are other people
living in your home, you should
isolate yourself from them.

Isolation Release

Be well* for 1 day **AND** at
least 10 days since
symptoms began

*fever-free for at least 1 day without using
medicine that reduces fevers **AND** other
symptoms have improved for at least 1 day

COVID-19: Isolation Release Times

**I have been diagnosed
with COVID-19, but
never felt sick**

Isolation Release

At least **10 days** after
test date

COVID-19: Quarantine Release Times

**I have had close
contact with someone
diagnosed with COVID-
19**

Quarantine Release

14 days after your last
contact with the
diagnosed person
